

Features

- Logic Level Input
- Input Protection (ESD)
- Thermal shutdown with auto restart
- Green product (RoHS compliant)
- Overload protection
- Short circuit protection
- Overvoltage protection
- Current limitation
- Analog driving possible

Product Summary

Drain source voltage	V_{DS}	42	V
On-state resistance	$R_{DS(on)}$	200	m Ω
Nominal load current	$I_{D(Nom)}$	1.4	A
Clamping energy	E_{AS}	150	mJ

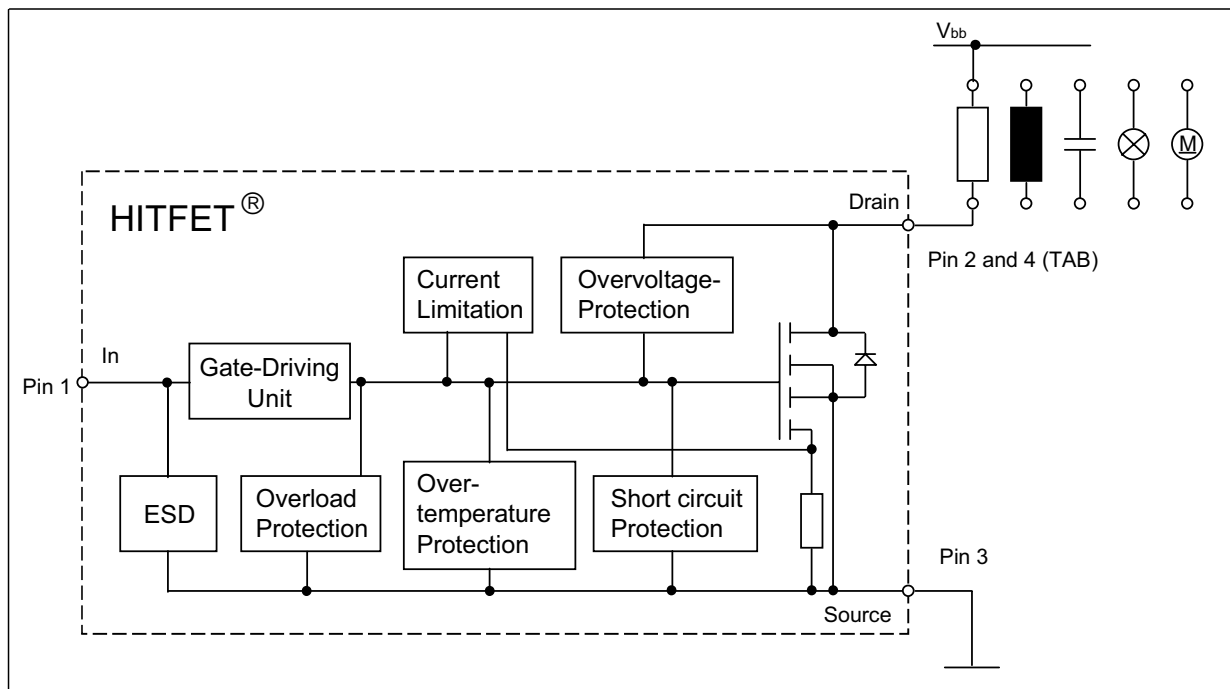

Application

- All kinds of resistive, inductive and capacitive loads in switching or linear applications
- μ C compatible power switch for 12 V DC applications
- Replaces electromechanical relays and discrete circuits

General Description

N channel vertical power FET in Smart SIPMOS[®] technology. Fully protected by embedded protection functions.

Green Product (RoHS compliant)

To meet the world-wide customer requirements for environmentally friendly products and to be compliant with government regulations the device is available as a green product. Green products are RoHS-Compliant (i.e Pb-free finish on leads and suitable for Pb-free soldering according to IPC/JEDEC J-STD-020).

Please specify the package needed (e.g. green package) when placing an order

You can find all of our packages, sorts of packing and others in our Infineon Internet Page "Products": <http://www.infineon.com/products>.
